

DECLARATION

Fairchild Industrial Products Company
3920 West Point Blvd.
Winston-Salem, NC 27103

Certifies that the listed Non-Electrical Equipment is acceptable for use in potentially explosive atmospheres. These products do not fall under the scope of the ATEX Directive, 94/9/EC, based on the assessment that ignition sources are not present.

Assessment:

Ignition assessment based on EN 13463-1:2001, EN 13463-5, EN 1127-1 with additional supporting standards and guidelines validates there are no potential ignition sources when installed per the product installation procedures and relevant Codes of Practice.

Hazardous Classified Areas:

The products are acceptable for use in Zones 1 and 2 for gas atmosphere Groups IIA and IIB and Zones 21 and 22 for dust atmospheres.

Models Covered:

The following pneumatic regulator, booster and relay models are covered under the assessment:

10, 14, 15, 16, 20, 24, 30, 100, 1000, 4000A, 4500A

Mr. Andy R. Askew

A handwritten signature in black ink that reads 'Andy R. Askew'.
